AVOID FRAUDULENT SCHOLARSHIPS – DO NOT APPLY IF THEY ARE:

· **Too good to be true**: Scholarships that will do "all the work" for you, no criteria, lottery-based scholarships, no paperwork needed.

· **Exclusive scholarships info**: Scholarships information is usually emailed directly to you and is not available anywhere.

· **Scholarship guaranteed**: Fraudulent scholarships sometimes ask students to pay a certain fee and "guarantee to refund the money" if they do not win the scholarships.

· **Application fee or "advanced fee" required**: No one should have to pay money to apply for scholarships.

· **No proof of past winners:** Companies or organizations that offer scholarships provide the names of their past winners unless they are new scholarships (make sure to do research on the scholarships providers if the scholarships are new).

· **Fake nonprofit or federal status:** Do some research on the providers to ensure the legitimacy of the organizations and their scholarships.
